

Dr. Kwiecien graduated from Oregon Health and Science University School of Dentistry in 1995 and holds a master's degree in healthcare administration. He has more than 25 years of private practice experience with most of those years overlapping in academia. Before joining Spear Education full-time from 2014 - 2017, Dr. Kwiecien served as assistant professor of restorative dentistry at Oregon Health and Sciences University School of Dentistry where his roles included director of the university's faculty dental practice, as well as course director of pre-clinical fixed prosthodontics and co-course director of advanced restorative concepts. Dr. Kwiecien's dedication to high-level continuing education began with Dr. Frank Spear in 2001. Shortly thereafter, he completed the curriculum at the L.D. Pankey Institute. He has over a decade of

national and international lecturing and workshops. Dr. Kwiecien is an adjunct faculty member at Western University of Health Sciences College of Dental Medicine, directing the practice management curriculum. He also serves as faculty member at the L.D. Pankey Institute and dedicates the majority of his time as the owner of K Squared Facilitation and Dental Education, facilitating long-term health for the practice, team, and patient.

Every Case is a Big Case: Is Occlusion the Key to Predictability?

Understanding and integrating a systematic approach to evaluating and treatment planning every patient will help a practice evolve into a more health-centered and valued practice. It will empower and enable the dentist to work with specialists more efficiently and predictably for all cases. The foundation to visualizing the end is the occlusion, whether it be proving that long-lasting comfort can be created on an appliance or transferring the information to models.

Learning objectives:

- Demonstrate the critical information to gather systematically during the exam
- Review the systematic approach to treatment planning every case
- Appreciate and understand the value of appliance therapy to help learn and deliver an occlusally solid final result.
